Ontario

THE 1984/85 CONSTRUCTION PROGRAM

A SUMMARY OF PROJECTS UNDERTAKEN OR PROPOSED BY THE MINISTRY OF GOVERNMENT SERVICES

I am pleased to provide the Ministry of Government Services' ***1984/85 Construction Program*** *outlining approximately 200 accommodation-related construction projects of the Ontario Government.*

This publication summarizes major capital construction projects completed in the past year. In addition, projects approved for construction, as well as those in various stages of construction, design, and analysis are included. Replacement and refurbishment, minor capital and accommodation alterations projects now under way, or proposed for implementation during this fiscal year, are also outlined.

Each project has been scheduled by my Ministry in co-operation with client ministries and agencies on a priority basis, to ensure that both the government and public benefit to the maximum extent from construction during this period of limited capital availability and overall government restraint.

I trust that you will find ***The 1984/85 Construction Program*** *an informative and useful guide to the construction activity co-ordinated by my Ministry throughout Ontario.*

Hon. George Ashe,
Minister
